

**Article X.
Signage.**

10.1 Purpose and Scope.

This section is intended to regulate and control signs and their placement throughout the Town of North Wilkesboro for the following purposes:

- (A) To provide a pleasing overall environmental setting and good community appearance, which is deemed vital to the continued economic attractiveness of the town;
- (B) To create a more productive, enterprising, professional business atmosphere;
- (C) To allow signs appropriate to the planned character and development of each zoning district;
- (D) To ensure that permitted signs do not become a hazard or nuisance;
- (E) To promote traffic safety;
- (F) To prevent business and advertising signs from conflicting with public safety signs; and
- (G) To protect and enhance the value of properties.

10.2 Applicability.

- (A) It shall be unlawful to construct, enlarge, modify, move or replace any sign or cause the same to be done, without first obtaining a sign permit for such sign from the town or its designee.
- (B) Notwithstanding the above, changing or replacing the permanent copy on an existing lawful sign shall not require a permit, provided the copy change does not change the nature of the sign so as to render it in violation of this ordinance.

10.3 General Provisions.

The following regulations shall apply to all signs.

(A) Construction Standards.

- (1) All signs shall be constructed and installed in accordance with the applicable provisions of the North Carolina State Building Code.
- (2) All temporary signs shall be constructed of materials and printed on by inks capable of withstanding normal weather conditions.
- (3) All signs, except for banners, flags, temporary signs, and window signs conforming in all respects with the requirements of this ordinance shall be constructed of permanent materials and shall be permanently attached to the ground, a building, or another structure by direct attachment to a rigid wall, frame, or structure.

(B) Electrical Standards.

All illuminated signs shall be installed in accordance with the applicable provisions of the North Carolina State Electrical Code and all detached signs shall be illuminated by an underground electrical source.

(C) Maintenance of Signs.

All signs shall be maintained in good structural and aesthetic condition. Deficiencies such as chipped paint, broken plastic, missing letters and exposed light bulbs shall be evidence of a lack of maintenance.

(D) Obstructions Prohibited.

No sign shall be placed so as to obstruct the clear sight triangle at a street intersection nor shall any sign obstruct the view of motorists entering or leaving an off-street parking area.

(E) Relation to Other Building Elements.

(1) Signs shall relate in their placement and size to other building elements without obscuring building elements such as windows, cornices, or decorative details, except that signs may be placed on the inside of windows.

(2) Sign material, style and color shall complement the building facade in terms of design, scale, color, and materials.

(3) Individual shop signs in a single storefront shall relate to each other in terms of design, size, color, placement on the building, and lettering style.

(4) Signs placed on the inside of the window areas shall conceal no more than forty percent of the area of the window on which the signs are located.

(F) Sign Lighting.

(1) Neon, argon and similar lighting fixtures shall not be used anywhere on the exterior of a building; however, such signs if non-flashing and non-moving may be mounted on the inside of store windows.

(2) Signs shall be lighted with indirect light sources (e.g. backlighting); knockout signs are encouraged. Ground-mounted and/or wall-mounted floodlights may also be used if the light is directed only on the sign and not onto adjacent properties, roadways, and the night sky and the light fixtures are fully shielded from view through the use of landscaping.

(G) Sign Height Computation.

Signs shall be computed as the lower of: 1) existing grade prior to construction, or 2) the newly established grade after construction, exclusive of any filling, berming, mounding, or excavating solely for the purpose of locating the sign. The calculation of the height of any sign placed upon a berm or mound shall include the height of the berm or mound.

(H) Sign Area Computation.

The area of a sign face (which is also the sign area of a wall sign or other sign with only one face) shall be computed by means of the smallest square, circle, rectangle, triangle, or combination thereof that will encompass the extreme limits of the writing, representation, emblem, or other display, together with any material or color forming an integral part of the background of the display or used to differentiate the sign from the backdrop or structure against which it is placed, but not including any supporting framework, bracing, or decorative fence or wall when such fence or wall otherwise meets zoning ordinance regulations and is clearly incidental to the display itself.

(I) Sign Area Computation for Multi-faced Signs. The sign area for a sign with multiple faces shall be computed by adding together the area of all sign faces visible from any one point. When a sign is composed of two or more sign faces, only one of which can be viewed from any one point, and when such sign faces are part of the same structure, the sign area shall be computed by the measurement of one of the faces.

(J) Forfeiture of Illegal Signs Placed On or Over Public Property. Any sign installed or placed on or over public property, except in conformance with the requirements of this section, shall be forfeited to the public and be subject to confiscation and disposal. In addition to other remedies provided by this section and the Town Code of Ordinances, the town shall have the right to recover from the sign owner and/or installer the full costs of removal and disposal of such sign(s). The town shall reserve the right at confiscation to hold the illegal signs for a period of 5 business days at the town garage, or other facility designated by the Town Manager, whereby the owner make receive them. After 5 business days, the signs may be disposed of.

(K) Digital/Electronic Reader or Message Boards. These signs shall not be allowed in any residential zone or in the CBD, NB and OI districts. However, they shall be allowed in all other commercial and industrial districts at a rate of one sign per establishment. Area computation for these signs shall be included in the total sign area permitted in the underlying zoning district. Message frequency shall be limited to one message every five minutes and shall be solid state and shall not flash, blink, scroll, or be animated in any way. Digital/electronic reader or message board signs that are less than 16 sq. ft. in area, however, shall be allowed to change a solid-state message every three seconds and be allowed to scroll as the only animation feature allowed. (amended 3-4-08)

10.4 Sign Placement.

The following provisions shall apply to the placement of all signs in all districts.

- (3) No portion of a freestanding sign, including projections, may extend into or over an existing public right-of-way, unless expressly permitted by this article or the Town Board on Town right-of-way.

(D) Temporary Signs.

- (1) Temporary signs shall be located on private property unless expressly permitted by this section to be posted on public property.
- (2) All temporary signs shall be anchored, attached, or otherwise affixed to a structure or support so that the sign cannot be easily dislodged by strong winds or heavy rains.

(E) Billboards Signs

- (1) Billboard signs are permitted only in the General Industrial, Light Industrial, and Highway Business Districts. In the Highway Business District, billboard signs are permitted only on property directly adjacent or adjoining Highway 421 Bypass, and such signs shall be directed toward traffic on Highway 421 Bypass.
- (2) No billboard sign shall be permitted closer than one hundred (100) feet to a lot zoned for residential purposes or to a residential use.

- (4) Only one billboard sign shall be allowed for each two hundred (200) feet of lot frontage in single ownership.
- (5) Billboard signs attached to a building structure shall not be higher than the wall to which they are attached. Outdoor advertising signs shall not be mounted on the rooftop of any building.
- (6) Billboard signs may be illuminated, provided such illumination is placed and shielded so as to prevent the direct rays of illumination from being cast upon neighboring lots and/or vehicles approaching on a public way from any direction.
- (7) Billboard signs shall not be permitted within a five hundred (500) foot radius of the intersecting centerline within an interchange on a limited access highway.
- (8) Angled projections shall not exceed 30 degrees.

If two are allowed the said signs shall be freestanding signs and they shall be located at least one hundred (100) feet apart and front along the two separate streets and not along the same street.
 - (c) Maximum Area: The maximum total allowable sign area shall be determined by multiplying the total number of tenant spaces located on the premises times twenty-five (25) square feet. In no case shall any multi-tenant sign exceed one hundred twenty-five (125) square feet.

Each tenant space used in computation of the maximum sign area shall be represented on the sign plan. No individual sign panel shall be larger than the maximum sign area allowed by the underlying zoning district.
 - (g) All signage on the premises, including building signage and billboard signs, must be in conformance with all current sign regulations upon installation of a multi-tenant sign.
