

Dear Duke Energy Customer,

Your neighborhood has been selected by Duke Energy to receive free products and services intended to lower energy bills as part of our Neighborhood Energy Saver Program.

Neighborhood Energy Saver has been developed by Duke Energy to educate our customers about energy efficiency to help lower monthly energy bills.

What you'll receive

As part of this special program, you will receive some of the following energy-saving items installed in your home at no cost to you:

- Energy-efficient light bulbs
- Water-saving showerhead(s) and faucet aerators
- Door weatherstripping
- Other energy-efficient upgrades customized for your home

Plus, you'll also receive other energy-saving tips that can help you reduce your energy usage and lower your energy bill.

By participating in the Neighborhood Energy Saver Program, we estimate that the average home may save up to \$95* per year on their energy bill.

How to get started

To take part in the program, you will be asked to complete an authorization form. You will be given the form at the time of the scheduled installation at your home. If you are currently renting your home, please obtain the owner's approval ahead of our visit. To take advantage of the program, an adult occupant must be present when we visit your home.

Check your mailbox in a few days for an invitation to the kickoff event for the program. The kickoff event will provide valuable information about the program and will be held Thursday, October 13, 2016, from 6:00 p.m. to 7:30 p.m. at the First United Methodist Church in North Wilkesboro, NC. For more information on Neighborhood Energy Saver, please call us at **855.231.5273**.

Sincerely,

Valencia Roner, Program Manager
Neighborhood Energy Saver Program

* Actual energy savings may differ from those estimated due to variations in individual energy use habits, home characteristics and measures installed. During this special limited time period, the program will only be offered to Duke Energy customers receiving this correspondence.
